CARRER OBJECTIVES

MCA student with strong skills in Frontend and Full Stack Web Development, proficient in React.js, JavaScript, HTML, CSS, Tailwind CSS, and MERN stack. Experienced in building real-world full-stack projects including rental home, contact management, and post office management systems. Seeking an entry-level Frontend / Full Stack Developer role to build scalable, user-focused web applications.

EDUCATIONS

SRM Institute of Science and Technology (Delhi, NCR) 2026

Master of Computer Application (MCA)

CGPA: 8.0

INMANTEC(CCSU) (Delhi, NCR) 2024

Bachelor of Computer Application (BCA)

CGPA: 7.3

Silver Shine School (CBSE) (Ghaziabad) 2021

12th Standard (Higher Secondary Class)

CGPA: 7.9

PROJECTS

Estate Hub - Rental Home Web Application

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Developed a full-stack rental home platform allowing users to browse, search, and list properties with secure authentication. Implemented property listing, filtering, and image upload functionality. Built RESTful APIs and integrated MongoDB for efficient data management. Focused on responsive UI and smooth user experience across devices.

E-Post Office Management System

Technologies: React.js, JavaScript, Express.js, Node.js, Tailwind CSS

Developed a full-stack web application that simulates core post office services through a centralized digital platform. Implemented user authentication, scheme and account information modules, and an interest calculation feature for different savings schemes. Designed RESTful APIs and integrated MongoDB for efficient data storage and retrieval. Focused on creating a simple, responsive UI and smooth user experience with secure data handling.

Contact Management System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT

Created a real-time chat application with user authentication and instant messaging functionality. Integrated Socket.io for live communication and MongoDB for chat persistence. Designed a responsive and intuitive chat interface.

SKILLS

- **Programming Languages:** Java, JavaScript (ES6+)
- **Frontend Technologies & Frameworks:** React.js, CSS3, HTML5, Tailwind CSS, Responsive Web Design
- **Backend Technologies:** Node.js, Express.js, RESTful API
- **Database:** MongoDB, Mongoose
- **Authentication & Security:** JWT (JSON Web Token), Role-Based Authentication, Password Hashing
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, MongoDB Atlas, Netlify, Render
