CAREER OBJECTIVE

Aspiring Frontend/Full Stack Developer with hands-on experience in building scalable and responsive web applications using React.js and the MERN stack. Skilled in developing RESTful APIs, implementing authentication, and managing databases. Seeking an entry-level Frontend/Full Stack Developer role to contribute to a dynamic development team while continuously enhancing technical and problem-solving skills.

EDUCATIONS

SRM Institute of Science and Technology (Delhi, NCR) 2026

Master of Computer Application (MCA)

CGPA: 8.0

INMANTEC(CCSU) (Delhi, NCR) 2024

Bachelor of Computer Application (BCA)

CGPA: 7.3

Silver Shine School (CBSE) (Ghaziabad) 2021

12th Standard (Higher Secondary Class)

CGPA:7.9

PROJECTS

Estate Hub - Rental Home Web Application

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Developed a full-stack rental home platform that allows users to browse, search, and list properties with secure authentication. Executed property listing, filtering, and image upload features to improve usability and overall user experience. Designed RESTful APIs and incorporated MongoDB for efficient data management while ensuring a responsive interface with smooth performance across multiple devices.

E-Post Office Management System

Technologies: React.js, JavaScript, Express.js, Node.js, Tailwind CSS

Built a centralized digital platform to simulate core post office services through a web-based system. Applied user authentication along with scheme and account information modules and interest calculation logic.

Architected RESTful APIs and merged MongoDB for secure data storage and retrieval, focusing on a clean, responsive user interface and reliable data handling.

Contact Management System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT

Created a contact management system with secure user authentication and role-based access control. Applied CRUD operations to efficiently add, update, and manage contact information. Incorporated RESTful APIs with MongoDB for persistent data storage and designed an intuitive, responsive interface focused on usability and performance

SKILLS

- **Programming Languages:** Java, JavaScript (ES6+)
- **Frontend Technologies & Frameworks:** React.js, CSS3, HTML5, Tailwind CSS, Responsive Web Design
- **Backend Technologies:** Node.js, Express.js, RESTful API
- **Database:** MongoDB, Mongoose
- **Authentication & Security:** JWT (JSON Web Token), Role-Based Authentication, Password Hashing
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, MongoDB Atlas, Netlify, Render
- **Core Concepts:** Problem Solving, Client–Server Architecture, RESTful Design, CRUD Application Flow, Authentication Flow, Data Flow, Error Handling
